ROOSEVELT'S RANK IN HIS TORY.

Judge Taft thinks Roosevelt is one of the greatest men this country has ever produced. One day last week he paid him the following tribute:

It is difficult for one with the depth of affection that I feel for Theodore Roosevelt to give a just estimate of the man but I firmly believe that when the history of the twenty five or fifty years hence shall describe his administration and the influence that he has exerted as the chief magistrate of the country he will accord to him a place with Washington and Lincoln as providentially raised up to meet an exigency in the country's history that was only less important than the Revolution and the Civil War.

Judge Taft has had exceptionally good opportunities for forming an opinion of Mr. Roosevelt and being of a judicial turn of mind and careful in expressing opinions respecting men and things what he says ought to be given great weight. It must be overlooked however that Judge Taft owes a great deal to Mr. Roosevelt and therefore is likely to be influenced in his opinion of him by the favors he has received.

Mr. Roosevelt sent him to Rome on a special mission to the Pope, appointed him Secretary of War, had him nominated and was largely instrumental in having him elected President. It would be strange indeed if Judge Taft did not have a very exalted opinion of Mr. Roosevelt.

Still it is only just to say that there are tens of thousands of others throughout the country who have an equally high opinion of him. On the other hand there are very many who while they admit that he is a man of great ability and force are by no means willing to rank him with Washington and Lincoln. He will rank high among the Presidents and public men of the nation but he possesses grave defects of character which detract from his fame and will influence the historian to give him a considerably lower place than that occupied by Washington and Lincoln.

The fact that his political enemies are busy attacking him don't count for much against him. What they are saying and doing will be forgotten before the time comes for fixing Mr. Roosevelt's place in history. In fact what Mr. Roosevelt's admirers are saying now will have but little influence in fixing his rank as a statesman. The summing up of the case for and against him will be done after the influence making public opinion for and against him have lost their force. There seems to be good reasons for saying

ANOTHER LYNCHING

A negro by name John Lawler was taken from the Blue Ridge Jail by a mob and lynched eight miles last night.

John Lawler had been indicted and placed in the county jail and was awaiting trial for the murder of a white man.

It is true that the case was a notorious one, but there was no mob should have waited until the trial was over. However, the mob did not wait and the negro was lynched. The mob was composed of a number of men and boys and they were armed with guns and knives. They took Lawler from the jail and carried him to a place where they lynched him. The mob was very angry and they were determined to hang Lawler. They hanged him from a tree and he died. The mob then burned his body and they were very satisfied with their work.

The fact that the mob was so large and so angry shows that the negro was very popular among the whites. It also shows that the whites were very angry with the negro. This is a very sad state of affairs and it is very dangerous for the negro. He is in great danger of being lynched and he is in great danger of being killed.

OWS HAVE CONSUMPTION

March 4.—The census taken by the monthly report of the City Department of Health shows tuberculosis present in the dairy herds supplying the city with milk. In all three herds of cows were inspected and found to be afflicted with the disease.

The city health officer says that the disease is very common among the dairy herds and that it is very dangerous for the cows. He says that the disease is caused by the bacteria which is found in the milk. The bacteria is very small and it is very hard to see. It is very dangerous for the cows and it is very dangerous for the people who drink the milk. JAPANESE LEAVE UNITED STATES

Tokio, March 4.—Returns just completed by the foreign office show that between June and December 1898-1904 Japanese left the empire bound for the United States while 5000 returned from the United States during the same period. Of those returning 3000 traveled through the Pacific which indicates they were of the laboring class against whom the Japanese government at present is directed.

The total number of Japanese sailing for Hawaii from Japan during the same period is shown to have been 1000 while those returning from the islands numbered 900 of which number 288 were laborers passing on.

During January 1909 the foreign office figures show that 100 Japanese sailed for the United States from Japan while 200 returned to Japan during the same period from that country. Two hundred and sixty of the latter traveled through the class.

The foreign office is particularly interested in the fact that on the same day a 1000 more Japanese returned from American territory than sailed to America during the past month and they state that this year will be extremely important of the effective operation of the Japanese agreement with the United States.

EN ROUTE

The Electric Theatre has been fortunate in securing the services of Mr. J. J. Hubbard to illustrate anatomy for them beginning Monday, March the 8th. Mr. Hubbard played the people of Valdosta, Ga. in his own theatre for two years. He has an attractive baritone voice and is familiar with the theatre business. He knows how to place the people. They have also arranged with the local orchestra to furnish music two nights each week commencing on Monday night at 7 o'clock.

These attractions will make their show with the high class of moving pictures which they are showing second to none in the state. Be sure to hear Mr. Hubbard next week in his own selections.

POLITICAL CLUB

Montgomery, Ala. Mar 4.—Headed by U. S. Field a number of young men here will organize a political club to study the best methods of government and find out how to get the best out of citizenship.

MAY IMPEACH SHERIFF

THREE BARREL GUN FOR BIG HUNTER

Monroeville, W. Va. March 4.—President Roosevelt will hunt big game in Africa with a three barrel gun. Several weeks ago the president placed an order at a factory here for a special gun which he stated he wanted to use on his African hunting expedition. He ordered the gun made extra heavy and strong for hard usage, with one shot barrel bored for back shot and solid lead. The gun was shipped to Washington yesterday.

NEGRO IS REJECTED.

VOLUME 1.

DOTHAN, ALABAMA, FRIDAY EVENING MARCH 5TH, 1909

NUMBER 137.

ANOTHER FIRE THIS MORNING.

Another fire this morning on West Main street, with a high Southwest wind caused much alarm this morning at about 9:30 o'clock, and brought at least a thousand people to the scene.

The house burned was the property of Mrs. O. A. C. Acree, of Newton, and was occupied by Mr. Frank Murphy.

The house caught in the loft of the kitchen and spread to the roof, but the work of the department kept the blaze confined to the roof, the bed rooms almost entirely escaping damage by fire.

Most of the furniture in the house was taken out, but it received pretty rough handling and was more or less damaged.

The amount of the loss on the building and its contents has not been estimated, but the house is badly damaged.

The burned building stood between the Episcopal church and Mr. John Peterman's new house and was only about twenty feet distant from either, but the wind fortunately carried the sparks across the street and away from the adjacent buildings.

ROOSEVELT'S FAREWELL GREETINGS

"Good bye, and good luck to you," were the farewell greetings of Theodore Roosevelt, as he departed from the Capitol for his Oyster Bay home at 3:30 o'clock Thursday afternoon. It was a magnificent spectacle when the great crowd who witnessed his departure waved handkerchiefs in unison and shouted "Good bye, Teddy."

As he was leaving the scene of his activity, Mr. Roosevelt gave every indication of delight over being relieved of official cares. Looking somewhat tired but happy the former President was deeply moved by the affectionate demonstration in his honor while waiting for his train at the station.

Mr. Roosevelt had been preceded to the station by Mrs. Roosevelt and Mrs. Nicholas Longworth and upon his arrival, an impromptu reception was held in the President's private room at the depot, and all his former cabinet officers and other admiring friends, came there to bid him farewell. Mr. Roosevelt, in conversation with friends, declared he was glad to give up his arduous duties.

"My, that was a fine inaugural address of Mr. Taft's," remarked Mr. Roosevelt to Senator Root.

"Yes," responded Mr. Root, "it was splendid."

Mr. and Mrs. Roosevelt occupied a drawing room on the Pullman car "Clytie."

CLEANINGS FROM TAFT'S INAUGURAL ADDRESS

Will carry out Roosevelt reforms as to industrial regulations.

Recommends adoption of inheritance tax to supplement tariff in revenue raising.

Suggests issue of bonds to carry out scheme of internal waterway improvements.

Reaffirms the Monroe doctrine as the true American principle. Must keep away and away in high state of efficiency.

Favors peace movements. The Hague but must be always prepared for war.

Wants legislation to give federal jurisdiction to foreign aliens residing in the various states.

Monetary reform must ensue to prevent recurring distress in money market.

Pledge of postal savings bonds must be met with such law.

Wants trade stimulus for South America and free trade for the Philippines.

Suggests small subsidies to steamships to promote opening of new markets.

Reciprocity through tariff containing maximum and minimum schedules.

Pinney canal will bring leveling of shipping rates on bulk materials.

Look final a side proposition completion in less than six years.

American control in Philippines becoming measurably popular.

Hopes to increase cordial feelings of South and all other sections.

Negroes must make themselves useful members of society.

Ballot by law must be earned through suitable qualifications.

Negro has made much progress and will continue to do so.

Giving negroes choice of any only as convenient to the state.

No appointment where such fact will increase the prejudice.

Favors labor laws now existing which make employer liable for injuries.

Injunction in labor disputes right but abuses must be provided against.

The secondary boycott an instrument of tyranny should not be made legitimate.

QUAKER MALE QUARTETTE

The Barren Class of the First Baptist Sunday school has engaged the famous "Ye Original Quartette" to give a performance here on Monday evening March 15th at the Elite Theatre. The Quakers are perhaps the most popular male quartette on the road and are now playing to full houses in other cities.

WILL LOAN MILLIONS

The Equitable Life Insurance Co. had in mind here this week looking over Dothan with a view to putting this city in a class of cities in Alabama where his company will loan money on real estate.

The company has been making loans already in Montgomery, Phenix and Mobile and has decided to add a few more of the said cities in the State to the list. The agent was well pleased with Dothan and expressed himself favorably in regard to the city.

He said that on account of the legislation it became necessary for the large insurance companies to change a great deal of their investments in railroad bonds to that of real estate. Hence his visit here.

A committee will likely come here in the near future and make a study of the city before any loans would be made.

The agent regretted that our city was not paved as is the case generally with cities of permanent growth. The improved streets of the town he said the appearance of instability or lack of permanency which is necessary where loans are to be made by his company.

The Equitable has more than two hundred million dollars to invest. As they are receiving only about four per cent for their railroad securities now they would be satisfied with something like six per cent on their loans. They would loan from 40 to 60 per cent of the acknowledged value of a piece of city property.

They will like to see this company come to Dothan and loan a million dollars.

The agent has gone to look over half a dozen North Alabama towns.

DR. ELIOT AT MONTGOMERY

Dr. Charles W. Eliot for forty years president of Harvard College will be in Montgomery on Monday and will give a lecture at the Grand Hotel at New Orleans now and is making a tour of the South with Mrs. Eliot. He is one of the most noted educators of the United States. There will be no admission charges and it is expected that many will be present on that day to hear him.

CIVIL SERVICE EXAMINATION

Postmaster Byron Trammell is holding a civil service examination in the court house today, to fill vacancies and appointments on the R. F. D. routes from Pansey, in this county.

THE SHOW LAST NIGHT

"Down in Dixie" was put on in the Elite Theatre here last night by amateurs from Abbeville and was as a whole a success. It was put on under the auspices of the Varma Davis Chapter U. D. C. and Camp Alexander C. Gordon and the talent was furnished by Southeast Alabama Agricultural School under the direction of its President Dr. C. J. Owens.

The cast was as follows: Misses Leola Jones, Mary Brad, Martha Armstrong, Misses Dunn, Dr. C. J. Owens, Capt. M. Sporn, Capt. C. V. Capps, Mr. Robert Wells, Lieut. J. L. Dunn, Sergt. L. Stephens, Lieut. Sellers, Rev. Sergt. Mays, Chum.

Dr. Owens as Haverly Wells and Miss Leola Jones as Helen Frevon deserve special praise for the manner in which they carried their parts.

The affair was a success financially, the proceeds amounting to something like \$100.

PHONOGRAPH TO CATCH WEIRD SOUNDS

Bridgeport Conn. March 4. There was delivered at Oyster Bay yesterday afternoon a specially constructed phonograph of aluminum by means of which Mr. Roosevelt hopes to record weird sounds of animals and the dialect of natives in the wilds of Africa.

The machine, which was made by a local manufacturing firm, is so light that it can be carried with little inconvenience by the hunting party.

CAMP BARTOW

On the third Sunday in the month March 21 Camp Bartow will have a military funeral of the grave of the late K. Stockland on the Jack Kelly place three miles from Brannon Stand.

Rev. Joshua Collins will preach the sermon.

All of the old soldiers are requested to be present on this occasion. M. V. WHITE.

GEO. FESHL, Commander, Serenely.

J. B. Dell, of Dothan, has been a visitor in town this week.

Mayor Baker of Dothan was an arrival on yesterday afternoon train. A proposal to make his honor assistant mayor of Phenix City was turned down by Mayor Baker. We fear living in Dothan so much of the time is spoiling him.

—Panama City Pilot.

Rev. A. L. Blizard, pastor of the First Baptist Church at Hartford, and one of the most able preachers in this part of the country, passed through Dothan today en route to Cowarts where he preaches tomorrow.

Dr. C. W. Billard left for Lappon Springs Fla. Thursday night.

ATLANTA LEADING SOUTH IN BUILDING

In the matter of building operations Atlanta led the cities of its size in the South last year. In fact it was far and ahead of many in cities both in the South and throughout the country. Some figures furnished by the Department of Statistics at Washington will be of interest.

These figures show that during 1908 Atlanta expended for building operations the sum of \$4,831,461. Memphis followed with \$1,000,000, Louisville \$969,505, and Nashville \$969,505.

Mr. and Mrs. Chester Newton of Auburn were here Sunday visiting her parents, Mr. and Mrs. Henry Martin, Abbeville, Tenn.

Crum should be made something "on sight," for he did relieve the situation mightily by resigning.

Reports will now begin to come in, tending to show how many people caught pneumonia by standing out in the Washington snow, watching the show.

The Atlanta Journal thinks that Doyle got all of his good ideas from Poe. Hear it: "Connan Doyle praises Poe, and doing so tells the world who Sherlock Holmes' father was."

Montgomery county, Ohio, seems to have made the largest Democratic gains in the last Presidential election, even though it is in Taft's state; so that county falls heir to the Bryan trick mule.

A man recently died who had been butting a good deal of money on horses, during his time, and the most of them must have been fast horses, for when the kinfolks finished looking through his papers, they all agreed that he was worth \$30,000,000; so there is no telling what he was worth. He was known as Lucky Baldwin.

Speaking of feeling good, but you ought to know that we are progressing down here in Dothan. That appropriation for the post-office building for Dothan has advanced to the stage of asking for bids on the building. Next thing you know the crowd will move from the corner of the new bank building up to the government lot, and hold out there for a spell.

Diaraoli says there are three kinds of lies—lies, d—n lies, and statistics. But that was before Editor Hall of the Dothan Eagle published statistics as to the number of dress suits in Dothan.—Andalusia News.

It seems that we need a diagram to know just how the above statement is to be taken. Unless the News means that we instituted a fourth kind of a lie, we fail utterly to catch what it does mean.

TWO HERE RECENTLY.

During the last few days a couple of men have come to Dothan and walked the streets, wearing beavers and tails. One, a portly, dignified middle-aged man, was in high spirits, and should have been as he dropped any one to object or make remarks that he characterized was a highly developed till he had the pleasure of coming out a few fellows about making ungainly remarks within his hearing, about people who wore such clothes. He caught the crowd smiling wherever he went, and had sense enough to know what they were smiling at.

The other one walked down town—and our phone began to ring. They were warning us all over town, and on attempting to make our escape, we met this fellow, and he looked more like he could back up such a turn-out than any we have seen recently. He looked just like the representative in congress from the Indian Territory, and had the unconcerned air that one might see on the faces of the men walking down Pennsylvania Avenue. Wouldn't care to have it reach his ears, but we understand that he is the head of a crew who are

THE BEST WE CAN DO.

The Alabama Press Association will meet in Dothan this year. Now that city is "dry," and some editors must have something. It is up to Bro. Hall of the Eagle to furnish them what they want—Ozark Star.

Glad to have been assigned so pleasant a task by the Star, for we, or the city of Dothan, which is the same, are blessed with two artesian wells that flow unlimited quantities of as pure water as can be found this side of Carlsbad. We have soda water folks who impoly jerks who are artists in their line, and a connection from their hands is calculated to almost deceive the palate of the old-inners. When this supply of wetness is exhausted, then we stand with hands up, unless the boys bring something stronger with them; for it is a fact, Dothan is "dry" just like all other Alabama towns.

In going over the Alabama ditors of today, those who look like they need their morning's morning to get their eyes open, are not on the list, for the people who are running newspapers in Alabama today, are men who do nothing else for a living, largely, and they couldn't make a living at the business unless they attended to the details of the office, and put out all the red alex and white lightning. They are a strangely sober looking lot, as compared to the class which the older editors tell us about, who once got on the small weeklies, when they were sober enough to do it, and had money enough to pay for the c. o. d. patent outside.

When in Rome—but what's the use; we'll do the best we can for you.

SCRATCH-PAD REFLECTIONS.

Between technicalities on the one side and professional etiquette on the other, justice and patience have plenty of ground upon which to sympathize with each other.

As a rule a sagging wife is the product of a husband's failure to do a little domination work now and then.

When a man's character is worth about thirty cents he will go around elaborating on the pains he takes to protect it.

Some people wouldn't give up advice without taking a promissory note for it.

A modiste who can make a dress fit the impoverished figure never lacks friends among the caker sex.

The average married man at a mixed party is a nonentity until he shows a disposition to flirt, and then he can attract more attention than he wants.

Some people disagree with everybody for the purpose of getting a reputation for independence.

An immense amount of time is wasted in explaining what is not worth it to people who haven't got enough sense to understand, but won't admit it.

There would be a lot more justice in the world if the lawyers didn't interfere.

When they can't find any other excuse a good many men blame their failure on the weather.

Some men are so lazy that they would rather get married than to continue to explain to every curious person that comes along why they are a bachelor.

As a means of protection, there is nothing that can take the place of a yawn.

With some people, burying the hatchet simply means taking a breathing spell for another attack.

The man who keeps his troubles to himself is a public benefactor.

There are a large number of people in this highly civilized country who seem to think they were made solely for the purpose of consuming food products.

There are a good many men who refrain from scrapping only because they are not sure they can get the best of it.

Some people seem to think a big hammer adds to the weight of the argument.

The trouble with a good many people is they have never learned the importance of retaining the wings of their imagination.

A good many people seem to think they are entitled to admission in to the best society as soon as they are willing to take a bath.

A Happy Birthday Party

On Wednesday afternoon Master Carl Johnson celebrated his fifth birthday by inviting a number of his little friends to come over to his house and play.

It was a blustery March day and the little folk were confined to the house. Nevertheless, they spent a very joyous hour in playing games suitable for indoor amusement. When the little people were invited into the dining room, a pretty night met their eyes. With a *color scheme of orange*, the table with its lighted candles was a thing of beauty. Fruits, candies and ices were served. The goose served in an *ampro basket*. The favors were miniature oranges, tied with green
